6.2.1 The Institutional Strategic/Perspective plan is effectively deployed

Every year perspective plans are evolved and deployed through action plans, academic and administrative activities and time to time review of respective outcomes to ensure the attainment of a strategic plan. At every level there will be effective monitoring and documentation. The perspective plan for the development comprises the following:

- To achieve excellence in Academics, Teaching and Learning
- To facilitate student centric development
- To provide better infrastructural facilities
- To enhance the social relevance of the institution
- To identify sources and mobilize funds
- To complete the automation process and achieving a paperless office administration
- To empower the students through information, guidance, training and support services
- To enhance the students' domain knowledge and soft skills through Jawahar Knowledge Centre (JKC).

Keeping in mind these goals, Departments developed their own strategic plans. To facilitate the process, faculty members from each department visited the premier Institutions across the state and identified best practices followed in those Institutions. This exercise not only proved to be an eye opener to the strengths of the college but also pointed out areas where the institution could improve in order to become a premier educational institution in the state. This planning programme has enabled the college to get ISO certification.

The institution promotes the culture of participative management by involving the teaching staff, non teaching staff, students and other associates in decision making at various levels. The principal, as the head of the college monitors the day to day functionality of the college, coordinates all the departments in executing the plans with respect to the curricular and co-curricular activities. The class Counselor system is in practice to develop good relations between student and teacher about their academics and other issues.

Successfully implemented activity:

❖ Organized ToTs to Faculty: **https://scimgdctanuku.ac.in/certi.php**

Our college successfully organized a Training of Trainers (ToT) program in various subjects, including Botany, Zoology, Microbiology, Biotechnology, Commerce, History, Telugu, Political Science, and Economics, at the NRC level during the academic year 2023-2024. Notably, our college faculty, who had previously undergone training at different Central Universities across India, served as Key Resource Persons for this program..

❖ Implemented JBFRS for Students:

Government of Andhra Pradesh is implementing Jagananna Vidya Deevena (JVD) post-metric scholarship for eligible candidates through Jnanabhumi portal based on the student attendance data through Jnanabhumi Portal.

The student attendance for JVD is implemented through Jnanabhumi Attendance App which is through Facial Recognition System (FRS). To implement FRS in GDCs the task was assigned to "M/s. Syntizen Technologies Private Limited" by the Government. The attendance of students from this academic year also 2023-2024 was taken into account based on the FRS system only in Jnanabhumi portal.

Therefore, our college is recording the students' attendance daily using the JBFRS application.

❖ Implemented APFRS for Staff:

Government of Andhra Pradesh issued orders to all the staff working in Government Degree Colleges of the State to take facial attendance through Android App "APFRS" daily in their working hours with effect from 16th January 2023.

Hence, our college staff (both teaching & non-teaching) is taking their attendance using APFRS android application and the attendance data is directly updated into the CFMS portal.

❖ Implementation of MDCs and SDC:

The Commissionerate of Collegiate Education (CCE), as part of its initiatives for implementation of Revised Curriculum Framework: 2020 in UG programmes in line with National Education Policy: 2020 (NEP:2020) has introduced a new list of Multidisciplinary courses(MDCs) and Skill Development Courses (SDCs) for all government degree colleges in the state. The same is approved and recommended by the affiliated university Adikavi Nannayya University, Rajamahendravarm. Accordingly our college made it compulsory for UG students to opt from the mentioned 17 skill courses without any deviation.

❖ Implementation of FMAP:

Commissionerate of Collegiate Education, Govt. of Andhra Pradesh introduced a new Android application FMAP (Fee collection and Monitoring) to collect the fee online from the students of all government degree colleges in the state.

Fee collection module helps not only for paying the fee but also students paying the various amounts at different times. Students can know his/her attendance percentage and timetables. The very first and most difficult situation for the students is to come to the office to pay the fee. Fee collection module helps to pay the fee from anywhere anytime with just one pinch. Students can get various details regarding fees such as Paid fee, Pending fee, etc, directly in the mobile application. According to the fee status, the student can pay the pending fee from the mobile application. Fee collection module provides instant notification in the mobile application regarding fee, students can also check the transactions for each fee paid. As soon as possible, students can get an acknowledgment of the payment. The proposed system is called the Fee Collection Module (F-MAP). It is a mobile app that can be accessed by students.

Our college students installed the app F-MAP in their mobiles and paying the fee online to the college.

❖Participation in Edx courses and SWAYAM courses:

In the academic year 2023-2024, our college witnessed significant participation (above 150 students) in online EdX courses (**11**), with a substantial number (8) of students enrolled in SWAYAM. Notably,three students successfully earned certificates upon qualifying in online exams and internal assessments.

Key Highlights

1. High student participation in online courses

2. Successful completion of SWAYAM and edX courses

3. Students earned certificates upon qualifying in online exams and internal assessments

NPTEL Online Certification

(Funded by the MoE, Govt. of India)

This certificate is awarded to

MULLETI SRILATHA

for successfully completing the course

Problem Solving through Programming In C

with a consolidated score of **55** %

Online Assignments	24.81/25	Proctored Exam	30/75

Total number of candidates certified in this course: **2979**

Jan-Apr 2024

(12 week course)

Prof. Haimanti Banerji
Coordinator, NPTEL
IIT Kharagpur

Indian Institute of Technology Kharagpur

FREE ONLINE EDUCATION swayam शिक्षित भारत, उन्नत भारत

Roll No: NPTEL24CS42S667600310

To verify the certificate

No. of credits recommended: 3 or 4

NPTEL Online Certification

(Funded by the MoE, Govt. of India)

This certificate is awarded to

POLUPALLI LALITESWARA SSV SUBHRAMANYAM

for successfully completing the course

Problem Solving through Programming In C

with a consolidated score of **57** %

Online Assignments	24.38/25	Proctored Exam	32.57/75

Total number of candidates certified in this course: **2979**
