

Indian Knowledge Systems

An Interdisciplinary Approach

Nageswara Rao Nutukurthi

Nageswara Rao Nutukurthi earned his Master's in Botany from Andhra University in 1994 and an M.Phil in 2017. With nearly 30 years of teaching and research experience, including a decade working in tribal contexts in Andhra Pradesh, he has served in various roles in government and NGOs. Since 2004 he has worked in the government sector, teaching plus-two and undergraduate students. His interests include community service, NTFP, medicinal plants, ethnobotany, value addition, and indigenous knowledge, promoting sustainable rural development initiatives.

Dr. Vijayakumar Yeleti

Dr. Vijayakumar Yeleti is an experienced academician and researcher in Botany with over 23 years of teaching and research experience. He completed his Master's degree from Andhra University in 2004 and later earned his Ph.D. in Botany. He is recognized for his dedicated teaching, student mentorship, and contributions to botanical science. Dr. Yeleti has published 15 research papers in reputed national and international journals and holds 2 patents, demonstrating his innovation-driven research. His expertise includes plant sciences, biodiversity, and applied botanical studies, through which he continues to advance botanical knowledge.

Kota Gani Raju

Kota Gani Raju is a Lecturer in Botany at Government College (A), Rajahmundry, Andhra Pradesh. He holds a Master's degree in Botany from Andhra University and has 18 years of teaching experience at higher secondary, graduate, and postgraduate levels. He has five years of research experience, pursuing a doctoral degree, and has published five research articles and had two patents. His research focuses on ethnomedicinal and traditional aspects of mangrove vegetation.

Dr. Neelam Ruhil

Dr. Neelam Ruhil is a Professor of Computer Science with over twenty years of experience in higher education, academic leadership, and research mentoring. She has served as Head of Department, Academic Convener, and Research Coordinator, fostering a strong culture of teaching, research, and innovation. Her expertise includes AI/ML, data mining, image processing, and cybersecurity, supported by publications, patents, and national awards. She is passionate about outcome-based education and faculty development, promoting research-driven pedagogy in higher education.
